***Claim Objections***

Claims 5 and 15 are objected to because of the following informalities: claim 5, lines 10 and 12, and claim 15, lines 10 and 12, recite "know" . This appears to be a typographical error. The examiner suggests changing "know" to —known—for claim clarity. Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-9 and 11-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-9 recite the limitation "the outcome" and "the product" in lines 6 and 21, respectively. There is insufficient antecedent basis for this limitation in the claim.

Similarly, Claims 11-19, lines 6-7 and 21, respectively, recite these limitations.

Claims 2-4, last two lines, recite "repeating the foregoing steps as desired until occurrence of said game terminating event". The claim language "as desired" makes it difficult to ascertain the scope of the claim. It is not clear what time limits or constraints "as desired" encompasses. Similarly, claims 12-14, last 2 lines, recite this limitation.

Claim 14, line 4, recites "the option". There is insufficient antecedent basis for this limitation in the claim.

***Examiner's Response to Applicant's Remarks***

Applicant's argument that Weiss does not teach the ***realization of a payoff equal to the product of said value to the outcome of the first cage component and said outcome accumulator value of said second game component upon occurrence of said game terminating event*** has been persuasive in overcoming the rejection of the instant claims in view of Weiss.

The examiner has updated the search and taken a closer examination of the instant claims for clarity. The examiner has recited claim objections and 112 2<sup>nd</sup> paragraph rejections that need to be clarified and correct to place this application in better condition for allowance.
